

SatPax[®] MicroSeal[®]-VP

Pre-wetted Sealed Edge Cleanroom Laundered 100% Polyester Knit wiper

SatPax[®] MicroSeal[®]-VP is an ultrasonically sealed edge cleanroom laundered wiper recommended for ISO Class 3 and above environments composed of 100% continuous filament polyester knit fabric. The wiper is pre-wetted with a consistent concentration of IPA and DI water and a 100% IPA option. This combination of properties provides SatPax[®] MicroSeal[®]-VP with the highest cleanliness, abrasion resistance, and chemical compatibility required for cleaning critical environments. The Pre-wetted format offers a cost-effective and easy-to-use solution versus traditional bulk handling of solvents and maintenance of squirt bottles.

Key Attributes

- 100% continuous filament polyester knit
- Ultrasonically sealed edge for reduced fibre contamination
- Laundered and packaged in Berkshire's ISO Class 4 cleanroom with Lot Number on each pack
- Pre-wetted with consistent IPA / DI Water concentrations and saturation levels
- 100% CMOS options available
- Zipper pouch, optional add-on 1-gallon bucket with lid

Benefits

- Critically low particles, fibres, ions and extractables
- High abrasion resistance
- High Absorbency
- Increases cleaning protocol consistency
- Light weight, high absorbency material design reduces actual cost in use compared to heavier weight products

Environmental

- Light weight, high absorbency design reduces landfill waste impact when compared to more traditional heavier weight designs
- Reduces VOC (Volatile Organic Compound) emissions
- Complies with RoHS
- Registered under REACH

Applications

- Designed for use in ISO Class 3 and higher cleanroom environments
- Designed for cleaning sterile surfaces and equipment during aseptic processing and USP <797> applications
- Excellent for cleaning sterile laminar air flow units, barrier isolators and bio-containment units
- Ideal for glove wipe downs during gowning procedures
- Cleaning of manufacturing equipment for semiconductor and microelectronics

Notes:

- Technical data represented in this table are typical value at the time of publication. These should not be used as product specifications.
- Due to differences in test methods applied and equipment utilised by different wiper manufacturers, valid product comparisons may only be obtained through side-by-side testing in the same test facility, under similar conditions
- Third party testing can be performed upon request
